

CQG Desktop

Next Generation Trading and Data Visualization

Modern Graphics and Analytics

CQG Desktop is the next generation of trading and data visualization from the original data and analytics expert you've trusted for more than 35 years. CQG Desktop offers trading, market data, charting, and analytics all in one easy-to-use product that can be customized to meet your trading needs.

Easy-to-use and Powerful

The new web-based technology doesn't require any software to download so it's easier than ever to access the markets with CQG. Popular features from other CQG products have been built into CQG Desktop, making it an easy switch from CQG Trader for customers looking to take advantage of charts and better graphics, including heat maps, account monitors, and more.

Award-Winning Customer Support

Our award-winning customer support teams operate from ten locations across the globe and strive to exceed customer expectations twenty-four hours a day.

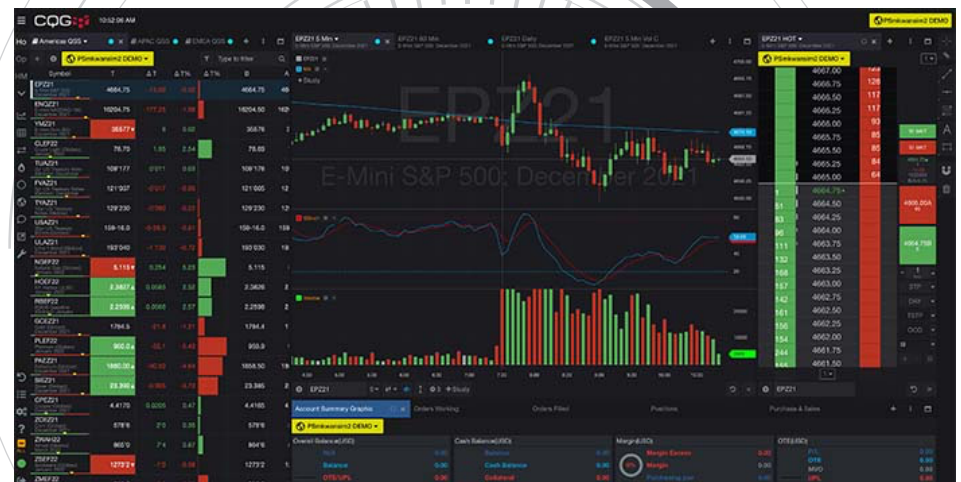

Our customer support is backed by product development staff in six countries, our product specialists, and our data quality and operations teams.

Why CQG Desktop?

CQG's robust cloud infrastructure has been the industry standard for data quality in the futures industry since 1984.

CQG Desktop works on virtually any platform and uses the latest technologies to bring a robust experience: HTML5, Protobuf, and WebSockets.

CQG Desktop's feature set is focused on the functionality that traders really need.
